

Corporates

Are you a business that operates multiple locations and requires a full service audio solution? □

In partnership with our authorised resellers we can help you deliver the right music for your brand with significant savings to your public performance licensing bill. In addition to the extensive catalogue of rights-inclusive music offered through MusicStream our partners can help you with:

- Creating a bespoke audio brand for your business with custom playlists and schedules.
- Central control over your music policy, targeted down to a single store either managed on your behalf or at head office level.
 - In-store messaging: the creation and controlled deployment and scheduling of messages to your locations.
 - Additional, secure options for content delivery through resilient dedicated hardware, and solutions to work within corporate networks.
 - Dedicated account management, installation and troubleshooting

and much more...
